SODIUM GLUCONATE

Description:

SODIUM GLUCONATE technical grade is white or yellowish crystal powder which is used in different industries.

Application areas:

- used as water reducing agent and retarder in the building industry, such as concrete admixture;
- used as cleaning agent of glass bottle;
- used as surface cleaning agent of metal;
- used as water quality stabilizer because it has excellent inhibiting capacity to scale.

Technical Specifications:

PROPERTIES	SPECIFICATIONS
Grade	Tech Grade
Description	White or Yellowish Crystal Powder
Loss on drying, %	0.5 Max
Purity,%	99.0Min
Reducing Substances,%	0.7Max
Heavy Metal(Pb), µg/g	10Max
Sulfate, µg/g	0.05 Max
Chloride, µg/g	0.07 Max
Lead, µg/g	2Max
Arsenic, µg/g	2 Max
PH	6.2-7.8
Clarity	Cloudless
