S2 GLASS FABRIC 190H8

Description:

S2 190gr Glass Fiber Fabric is a high-quality glass fiber woven fabric produced as a woven fabric, which is used in high-quality especially advanced composite manufacturing, epoxy-compatible, very easily impregnated, high-quality glass fiber woven fabric.

Technical Specifications:

Description				
Weave Style		8H satin		
Fiber	Warp	S2 Glass (SC9 33)		
	Weft	S2 Glass (SC9 33)		
Finishing		Aero finish		
Fabric Properties				
Properties:	Unit	Typical values		Standard Method
Areal Weight	g/m ²	190 ± 4%		UNI 5114
Thickness	µm	130 ± 15%		UNI EN / ISO5084
Construction	threads / cm	Warp 28,7± 0.3	Weft 27,5 ± 0.3	UNI EN 1049-2
Tensile Strength	N / cm			UNI EN 29073-3
